Friday Night Free Skate July 2012

The Factory Skatepark runs a free skate session weekly on Friday nights from 6pm to 8pm targeted at young people from the DD4 8 postcode area as this session is partially funded by Dundee Partnership for this area.

These sessions give a great opportunity for the Factory youth team to promote and spark interest in the other youth diversionary activities provided at the Skatepark throughout the week. It is a great way of building good

relationships with the young people.

We have had 540 participations in this activity this year which is very encouraging especially as we are in the summer months which generally find young people outside and the numbers using the skatepark tends to be less during this time. This activity also attracts both male and female users.
