

SUMMER COACHING 2014

Over the Summer Holidays we ran 3 weeks of our Coaching Club with two weeks for ages 5 - 9 and one week for ages 10 - 14.

In the morning the young people were on the skatepark learning various new tricks and skills. They had the opportunity to experiment on Skateboards, Inline Skates and Scooters with staff members and our team of Stewards who volunteer to help coach them, either in the basics or more advanced areas.

The young people over all three weeks progressed well and were able to do new ramps and tricks beyond what they had imagined at the start of their time at the club. With ages varying from 5 to 14 there is a wide range of abilities for the coaches to work with but everyone was able to learn something new and that was great to see.

Afternoon sessions were based around various different youth activities. These range from time spent on the bouncy castle, watching a magic show from local magician Harry Mudini, and playing team sports such as rounders and dodge ball to a trip to Battlefield Live to play laser tag, trips to The Fun Factory to play on the soft play equipment and water balloon fights on sunny afternoons. There was a wide

range of activities that the young people took part in and it was great fun for everyone involved. The young people were well behaved and everyone got on well.

Attendances were good from the local area with many young people who come to our homework clubs and youth clubs being present this time around. As usual there were a number of young people who met for the first time over the summer club and it was pleasing to see new friendships being formed and young people having a great time together.
