

## XMAS FUN DECEMBER 2014

Our last youth club of 2014 was Christmas Fun. This club ran on both Monday and Wednesday with young people free to attend on both nights if possible.

We did one lesson focusing on Christmas lists and how to think of other people during the season of goodwill, appreciate what you have and the presents that you gain.

Most of the sessions were arts and crafts based with us creating various different festive pieces such as Christmas themed colouring-in story books, decorations for the youth room, and in the final week a giant Christmas tree where every young person coloured in an A4 sized section and then it was all taped together and stuck up on the wall.

As with all our youth clubs the activities were aimed to foster teamwork, build self-esteem, and help the young people gain new skills and knowledge.

As with the homework club attendances declined as it got closer to Christmas but those that attended enjoyed the activities and worked well together. Over the course of the club everyone got on well and behaviour was of a good standard. Everyone who was at the club put in a lot of hard

work to finish each art and craft task each session.

This is definitely a club we will run next year. If we have young people attending the youth club of appropriate age we may try to put on a Christmas Pantomime but whatever we run, it will be Christmas themed and fun.
