

## GAMES CLUB SUMMER 2015

Games Club ran for 6 weeks in May and June 2015 for primary school aged young people.

The focus of this club was for young people to come along and play games, in various formats, as a group. This ranged from outdoor games such as dodge ball, rounders, football, running races, etc. to indoor games such as bingo, board games, video games, and then on to games in the skatepark arena.

There really was something for everyone to get stuck into and enjoy, and this was reflected in the attendances levels, which consistently rose across the 6 weeks this club ran for. On the last week it was one of the young people's birthday so we had a party for them, which allowed us to explore party games and introduce everyone to some that they had not played before.

Games Club was a great club to run in the summer months as it meant we had options whether to stay indoors or take the club outside and run activities at the local park and playing fields. We will definitely be running this again next summer either right before or straight after the school summer holidays.
