

## STEWARDS VISIT TO TRANSGRESSION PARK IN MIDLOTHIAN SPRING 2015

The first Stewards trip of the year was to Transgression Park in Midlothian.

This skatepark in Dalkeith had recently undergone renovation and many of the group had not visited since this had been carried out so the group were eager to try out the new layout and ramps and were very excited to get started.

These trips are for the young people who volunteer for us on a regular basis throughout the year and are supported as a reward for the time they give to The Factory Skatepark.

There were 9 who attended the trip and they had a thoroughly enjoyable day.

The new ramps and lines were great for the young people to try out with a resi ramp in place for them to learn flips and tricks that they would struggle to learn on regular wooden ramps. A resi ramp has a different surface which is softer and allows for a better impact without injury. The bowl and small boxes were clear favourites with the scooter riders, while the bikers and skaters tended to focus on the resi and big boxes a lot more.

We plan to take a group on a trip to

another Skatepark later in 2015.
