

XMAS FUN WINTER 2015

As it is the end of the year and our Youth programmes finish for the Christmas period, we take the opportunity to have more fun with our end of year Youth Programme.

Christmas Fun runs for 4 weeks twice a week on Monday and Wednesdays giving us lots of opportunity to be creative and get festive.

The 4 weeks were spent doing all kinds of arts and crafts and science experiments. The children made Christmas cards, Christmas decorations and crackers to take home for family & friends. The science experiments consisted of making snow and ice; the rest of the time we spent playing games,

completing festive word searches and quizzes. On the last day of our Christmas Fun we had a more relaxed atmosphere; popcorn, sweets and juice were provided as we watched the film, A Muppets Christmas Carol, playing Christmas games and singing carols. The Youth Club is free for those who wish to attend aged between 5 -14, Dundee Partnership provides funding that allows us to run the programmes we do and provide the materials we need for the children to enjoy themselves.

Attendances for the Youth Club have not been at there best for 2015 compared to previous years, to try and boost and improve the attendances for 2016 we

have altered our Youth Programme, as of January the 11th 2016 we will be holding two youth club. Monday evenings will be for ages 10-14, Wednesdays evenings for the younger children aged 5-9.
