## Adventure Club - June 2011

The adventure club lasted 5 weeks and was designed to increase interpersonal skill, confidence and self esteem while teach the group members skills they could use outside of the Skatepark. The club was attended by an average of 11 members aged between the ages of 6 and 12.

Over the weeks they had a number of challenges to overcome which proved a real challenge for some of the young people. One week we went off to Monikie Country Park for a den building activity in the woods. The young people took a while to settle into the activity but once they had decided on what they

were going to do they really attacked it with gusto and built 2 amazing shelters. This showed great teamwork.

For the final evening of the course before the end of term the children were taken to Avertical World as a treat, the children thought this was amazing as they had never been to a place like this before, there were only 2 instructors so the children had to take it in turns to have a go, some were really good, others gave it a go to the best of their ability, which was really good for them and they were quite happy with what they had achieved.
