

Holiday Programme

April 2011

During the two weeks of the Easter holidays a successful holiday programme was run. In the morning there was coaching in skateboarding and inline skating and in the afternoon there was a youth programme. This year we took advantage of the good weather and took the young people out in the minibus to various locations.

An extract from our youth workers report for one of the days is given to illustrate a typical day.

The kids were straight onto the park this morning, and started to follow the plans that we had for them, learning different techniques, and tricks etc. They were really keen to get started this morning and when they came back of the park they were saying how much they had enjoyed it and how much they had accomplished and also how good they were at it.

Today we went to Monikie Park as the weather was really good, we took some of our outdoor equipment i.e. balls, bats, Frisbee etc, and also some juice, crisps and sweets, the children were excellently behaved and played a variety of games and also their own games within the play park area, the kids all said they had really enjoyed the trip, and we couldn't ask for a better group they were an absolute credit to the Skatepark.
