

Homework Club Report

Spring 2011

Overall things have been very busy at and in general the Homework Club is full almost every night.

Aims of the Homework Club

- * Increase confidence and self belief.
- * Improve literacy and numeracy skills.
- * Support the young people with any issues.
- * Build interpersonal skills through communication and teamwork.

We continue to have homework supervision and help for the first half of the club and sport/ games activities for the second half of the session. A few of the young people are now asking to be helpers as they have moved into secondary education. This is an encouraging aspect of our work as we want to encourage volunteering
